Dear Mr. Cameron:

First let me say, I sincerely hope that you, your friends and family were unaffected by the recent disaster in your city.

I am writing to you as a young, and hopefully contemporary, artist, interested in getting a showing at your museum. I make large-scale (though still very small) models of bacteria and viruses. The works are viewed through a magnifying glass. I have 10 never before seen models ready for showing, including: *Dasheen mosaic potyvirus*, *Bovine ephemeral fever virus*, and *Staphylothermus hellenicus*, I have displayed some of my earlier work here, at home, as well as in several cities across Canada.

Please let me know what format you would prefer for my portfolio.

Looking forward to hearing from you,

Garth Johnson

P.S. Could you send me an autographed picture? I am also working on another project involving pictures of art museum directors.
