Dear Kissinger:

So what are you going to do now that War Crimes Trials are all the rage? It seems to me as though once they tee up Milosovic, your number should be coming up soon after. That's just great. You've led a remarkably charmed life so far... but the blood of thousands of innocent people can't be denied. The day I see you brought into court face the many, many charges against you is a day I have long waited for. Don't worry, I'll come visit you in prison.

Looking forward to poking you with a stick,

Garth Johnson

P.S. Could you send me an autographed picture for my most wanted war criminal poster?
