Dear Ms. Murray:

Let me begin by saying that you are my all-time favorite performer. I grew up listening to your music, as my mother was a big, big fan of yours. During my teenaged years, it was one of the few things that we could agree upon. We'd always listen to you on the 8-Track on the drive to school. In many ways, your example was what inspired me to become a musician myself. As you no doubt well know, a musicians life can be a pretty hard road to hoe, and I have always looked to you, and your career, for inspiration when things look bleak or hopeless.

I hope that this letter finds your well, and hopefully you will come to Victoria to perform sometime. I'll look forward to it.

Sincerely,

Garth Johnson

P.S. Could you please send me an autographed picture? Thank you in advance.
